You will find it hard to get Sept 7th at Washington as they might start football. Grays & Cubans are at Cincinnati on this date. I have not had any personal contacts with sports writers in Washington. I had left this up to Witherspoon. He is not working for us. No one knows where he is. Mr. Morrissey get the radio publicity for us. He gets the use of two stations. Since he has been looking after it we have been getting good results. Mr Morrissey is in charge of Griffith Stadium. Something has happened to your club. They have beaten us 5 straight games. We received 262⁰⁰ each in Indianapolis not so bad. Considering Kansas City & Chicago booked in there the day a head of us. For every thing concerned we will have to fall out or get the Western League strangled out as they are hurting our spots. If they were not coming East to play in Yankee Stadium and Bushwick they could not afford to come this way and we could preserve places where we can get real money.
